

## AGM SERIES

### ELKA EA950 AGM Starter Battery: Type L5

- ▶ Absorbent Glass Mat separator
- ▶ X-Frame Grid Technology
- ▶ Charged and ready to fit

#### Description

Start Stop cars and vehicles require an enhanced battery due to the frequent start and stop events at traffic lights. Therefore, battery with enhanced durability and charge acceptance is required to withstand the severe driving environments for the Start Stop vehicles. ELKA Start Stop series have enhanced the durability and battery life to perfectly optimise for Start Stop vehicles. Suitable for Start Stop System Regenerative Braking System Urban intensive use Heavily equipped electronic devices. ELKA AGM batteries are premium concept batteries that feature up to 4x longer battery cycle life, faster charging, 100% leak and spill proof and more.

#### SPECIFICATIONS

Manufacturer Part Number	EA950	Dimensions LxWxH (mm)	352 x 174 x 190
Voltage (V)	12	Weight (Kg)	27.0
Capacity (AH) (C20)	95	Warranty (Months)	12
Cold Cranking (EN)	850	Battery Technology	AGM
Terminal Type	A, Standard Automotive	Battery Application	Starting
Terminal Layout	0	Country of Manufacture	South Korea
Hold Down	B13	Suitable for Start Stop	Yes
